REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The instant invention claims pellets of high-stick temperature and a method to obtain such pellets comprising ethylene-based copolymer having a specific composition and sufficient amount of a surface coating of water-soluble metal salts of an aliphatic acid having 4-10 carbon atoms.

The closest prior art references that relate to the claimed invention are Baumgartner'888 and Flores'124. The prior art teaches that it is known in the art to make and use ethylene based copolymer pellets having a surface coating agent. However, the prior art does not teach or suggest the instant invention wherein the specific composition and properties of the pellets are claimed as well as a method to obtain such pellets. .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to leszek b kiliman whose telephone number is 703-308-2373. The examiner can normally be reached on M-T, 6.30-5.00.
